

## SCI200A

2/4A 12V International Automatic Charger/Maintainer

### Detailed Description:

This compact charger offers efficient SpeedCharge technology and the convenience of multiple battery connectors. Charges small motorcycle, ATV, snowmobile and lawn tractor batteries. Maintains small and large, stored or antique/classic-car batteries.

- 2 amp slow charge rate – for 12 volt batteries
- Reverse-hookup protection
- Versatile Quick-Disconnect Harness with 3 Connectors
- 50 amp clamps for top and side post batteries
- 12V-accessory plug for in-car charging or charging portable power jump starters – charges them faster than provided charger
- Ring connectors for permanent connection. Great for hard-to-reach motorcycle batteries
- Molded plastic case
