Price List	pg. 76

At LP AERO PLASTICS, we take pride in having provided the aviation industry with superior quality replacement windows for over 50 years.

Our catalog has now been expanded to include windshields, windows, lenses, accessories and installation supplies for over 500 different aircraft models of both domestic and foreign manufacture. Our windshield listings can be confirmed with serial and model numbers, year of manufacture, thickness of material, and cross-referenced with OEM part numbers. This comprehensive catalog is designed to clearly provide the appropriate information essential to ordering the correct parts. Being the most complete source of aircraft windshields and windows, LP AERO PLASTICS' new catalog is the most vital tool in window replacement.

QUALITY. All LP AERO PLASTICS' windshields and windows are manufactured of high optic quality acrylics. These are available in clear, green, and solar gray tints. For ease of installation, they are trimmed to OEM specifications. Our quality control systems are approved by the Federal Aviation Administration, meeting the Federal Aviation Regulations, and the Department of Defense, meeting MIL-I-45208A. **All FAA-PMA approved parts are shipped with the FAA-PMA approval tag, which has the complete approved applicability list attached. An "Airworthiness Approval Tag", FAA form 8130-3, which is "NOT FOR EXPORT" is also attached.**

SERVICE. Special attention is given by our staff to provide a fast, economical delivery. We make every attempt to secure the best freight discounts available and we pass those discounts on to our customers. **We are now able to ship many of the large Cessna, Piper, Beechcraft and other model windshields by UPS.** Check our price list in the rear of this catalog for those windshields which will now ship via UPS. An extensive inventory of over 2000 different part numbers enables our Shipping Department to ship most orders within one day. **AOG ORDERS** are expedited and prioritized for the fastest possible shipment for a \$30.00 nominal fee, per shipset. (see page 73)

WORLD WIDE. Total services are available for export shipments, including all documentation and crating as necessary for either air or sea freight. Our on-staff FAA-DMIR (Designated Manufacturing Inspection Representative) permits our company to provide prompt efficient compliance with the requirements of all foreign aviation authorities of the importing countries. **The "Airworthiness Approval Tag", FAA form 8130-3 for export, must be requested prior to the shipment being made. The name of the importing country must be supplied.**

PRICE. Our prices are usually well below OEM prices and our discounts comparable or better. We sell wholesale only with Dealer and Distributor discounts extended to those companies qualified in aircraft parts, maintenance, sales, and service.

SPECIAL ORDERS. We are able to custom make windshields, windows and canopies from your specifications or your tools: home builds, extra thick windows, special vents, camera windows, large domes, and out-of-production windshields and windows. Any window manufactured by our company which varies in any way from our PMA approved data will not be supplied with a FAA-PMA tag. **Installation of any non-standard, non FAA-PMA approved part on a certificated aircraft will require a 337 field approval or an STC.** We will provide documentation and assistance in the approval process.

RETURNS. **Any item* purchased from LP AERO PLASTICS may be returned for a full refund within 30 days of the original shipment date.** Items returned 31 to 60 days after the original shipment date will be refunded less a 20% restocking charge. All returned items are subject to inspection and must be as new, untrimmed, unmodified, and undamaged. All factory protective coatings must be in place and intact. Returned items must be shipped pre-paid and insured, and have an LP Aero Plastics "RETURN AUTHORIZATION NUMBER" written on the outside of the shipping container next to the shipping label. Please call for return authorization. **After 60 days all sales are final and no refunds will be given.**

***All custom-made and non-standard windows are payable in advance and cannot be returned.**

Note: As an additional service to our customers, certain parts which are listed in this catalog are not manufactured by LP Aero Plastics but are in stock or available. The quality system of these parts is governed by their respective manufacturers.

Window Care, Installation Products, Parts and Accessories

LP Aero Plastics - Acrylic Polish and Sealant

Not just any polish is good enough to carry our name! A superior no-wax, non-yellowing formula containing polyethylene polymers. This superior product not only gives a super slick surface to your windshield and windows, but can also be used on your entire aircraft, including all the painted gloss surfaces, aluminum and fiberglass. Ease of application and removal is unmatched. Sold in 16 oz. single bottles and in cases of 12.

	PART NO.	LIST PRICES	CODE
LP Aero Plastics Acrylic Polish and Sealant 16 oz. squeeze bottle	SP-PL16	12.95	NONE
LP Aero Plastics Acrylic Polish and Sealant - Case of 12 bottles	SP-PLCS	155.40	I

DuPont Sontara® Window Wipes

New Sontara® window wipes are made of a proprietary blend of fibers that are softer than most conventional wipes. Since many scratches are caused by grit and dirt already on the surface of the window, this product features apertures that help pick up and remove dirt effectively. Using LP Aero Plastics Acrylic Polish and Sealant to "float up" the dirt before wiping is the best way to minimize the risk of scratching.

DuPont Sontara® Window Wipes - Case of 500 wipes	SP-AC1213WWCS	85.35	C

LP Aero Plastics - Window Care Kit

This Window Care Kit contains one 16 oz. bottle of LP Aero Plastics Polish and Sealant, one box of 25 Sontara Window Wipes, instructions and other documentation.

LP Aero Plastics Window Care Kit	SP-PL16WW	17.95	F
LP Aero Plastics Window Care Kit - Case of 12 kits	SP-PL16WWCS	215.40	F

"210" Plastic Cleaner and Polish

For those who prefer an anti-fog, anti-static windshield and plastic cleaner in an aerosol spray.

"210" Plastic Cleaner and Polish - 14 oz. Spray Can	SP-210A	8.00	D
---	---------	------	---

"210 Plus" Plastic Scratch Remover

A fine liquid abrasive for removing fine scratches that ordinary cleaner/polishes can't handle.

"210 PLUS" Plastic Scratch Remover - 15 oz. Squeeze Bottle	SP-210P	9.00	D
--	---------	------	---

Prism Kit

This inspection prism kit is ideal and invaluable for inspecting windows on the aircraft where the holes and edges are hidden by the aircraft skin or fairings. By applying the couplant and positioning the prism on the window next to the edge of the skin, it allows you to see the entire edge of the acrylic including the mounting holes from top to bottom. You are able to see cracks and breaks in the acrylic or glass.

Window Inspection Prism kit	SP-PRIKT	115.00	E
Prism Repair	SP-PRIREP	50.00	D

Special Acrylic Drill Bits

Don't be fooled by the over the counter so-called "plastic drill bits" purchased at your local hardware store. Our drill bits are specially sharpened to scrape a clean hole through your acrylic window. These drill bits will not chip or crack the acrylic like standard drill bits. They are available in individual sizes from 1/8" to 1/2" and 1/2" 100 degree countersink. Sets with countersink and index box take the guesswork out of which bits to purchase. This type of bit is required when drilling windshields and windows is specified. Remember that acrylic expands and contracts, so drill your holes oversize.

Foam Tape

This is an adhesive backed, closed cell foam tape which is available in various sizes by the roll. This tape can be wrapped around the edges of the windows to both cushion and seal. **DO NOT STRETCH DURING APPLICATION, IT WILL PULL BACK AND LEAVE GAPS.** Piper used this extensively in their window installations.

Foam sealing tape 1/4" x 1/32" x 100'	SP-FT132	16.50	E
Foam sealing tape 1/4" x 1/16" x 100'	SP-FT116	16.50	E

Foam sealing tape 1/4" x 1/8" x 10' used on sealing flange of vent windows	SP-FT1410	4.50	E
Foam sealing tape 1 1/4" x 1/16" x 100'	SP-FT114100	28.00	E
Foam sealing tape 1 1/4" x 1/16" x 25'	SP-FT114125	11.75	E
Foam sealing tape 1 1/4" x 1/16" per lineal foot.....	SP-FT11412	.50	E

Felt Tape

Adhesive backed in various widths and thicknesses. Used on numerous Cessna front and rear windshields. Available in rolls and by the foot.

Felt - adhesive backed 1/16" x 1 1/4" (per lineal ft.).....	SP-F114	.39	E
Felt - adhesive backed 1/16" x 1 1/2" (per lineal ft.).....	SP-F112	.45	E
Felt - adhesive backed 1/16" x 2" (per lineal ft.).....	SP-F2	.50	E

Piper Black Tar Tape

Available in rolls 1/16" x 1" by 50 ft. Used by Piper on many of the older windshield installations.

Piper black tar sealing tape 1/16" x 1" x 50'	SP-TT50	24.00	D
---	---------	-------	---

Strip Sealants

The following are strip type sealants. These are especially useful in filling large gaps. These sealants are used in many Cessna installations.

Green, 1/8" x 1/2" x 50' roll - Cessna sealant 579.6 (Presstite).....	SP-5796	15.00	D
---	---------	-------	---

Polyurethane Sealant

Bostik 1100FS Fast Set Polyurethane Sealant is now being recommended by Piper Aircraft for many of their window installations. This is a non-hardening, paintable, fast curing, sealant. (Work life - 70 minutes, Tack free - 90 minutes, Full cure - 1.5 to 3 days) **Do not use where holes have been drilled through the sealing/mounting edge of the windshield.**

Bostik 1100FS urethane sealant 10.3 oz. tube - black.....	SP-1100BL	9.75	D
Bostik 1100FS urethane sealant 10.3 oz. tube - white.....	SP-1100WT	9.75	D

RTV-732

Dow Corning Silicone Sealant in clear and black. 10.3 oz. tubes. Be sure to mask both the window and the aircraft skin prior to applying the sealant. This will make for very easy cleanup and a professional installation. This applies to any sealant you may use.

RTV-732 Dow Corning silicone sealant 10.3 oz. tube - clear	SP-R732C	9.75	D
RTV-732 Dow Corning silicone sealant 10.3 oz. tube - black.....	SP-R732B	9.75	D

Two-Part Polysulfide Sealants

This is a two-part, gray sealant, available in both an 8 oz. can with separate accelerant and a two-part cartridge for use with a hand application gun. We stock the "B2" which allows a two hour work time.

This sealant meets Military Specifications - MIL-S-8802

Interchangeable sealants:

- Advanced Chemistry & Technology - MC-236B
- Courtaulds Aerospace - Pro-Seal 890B, PR-1440B, PR-1487
- D Aircraft Products - BR4005B
- Flamemaster Corp - CS3204B
- Fiber Resin Corp - PS-1102B
- J & R Industries - WS-8020B

	PART NO.	LIST PRICES	CODE
8 oz. Can - Two-Part sealant kit (AC-236 B2)	SP-32048	30.00	D
5 oz. Cartridge sealant kit - with nozzle (AC-236 B2)	SP-6611	25.00	D
3.5 oz. Cartridge sealant kit - with nozzle (AC-251 B2)	SP-251	35.00	D
6 ml Adhesion promoter for use with AC-251	SP-137	12.00	D
Hand application gun - for use with cartridges	SP-K162	26.00	D
Replacement plastic collar for hand application gun	SP-BEZ	7.50	D

Bonding Kit For Grumman/Gulfstream/American General AA-1 and AA-5 Series Windshields and Canopies

The sealant and instruction sheet are included for bonding the windshield to windshield bow and the canopy to its frame. The sealant is a two-part polysulfide AC-251 B2 with AC-137 promoter. Two hour work time.

Bonding kit for Gulfstream windshield.....	SP-BKG1	45.00	D
Bonding kit for Gulfstream canopy.....	SP-BKG2	80.00	D

Acrylic Cement

Used when bonding acrylic to acrylic, as in compass mount blocks, reinforcing strips, patches, etc. The liquid acrylic cement is water-like in consistency and is most easily applied with a syringe. The thickened cement is heavy bodied and is easily applied from the tube. The liquid cement requires tight contact between both bonding surfaces, while the thickened cement will fill slight gaps. Both will have excellent bonding strength when fully cured.

Liquid acrylic cement - 1 pint.....	SP-C1PT	12.50	C
Liquid acrylic cement - 4 oz.	SP-C4OZ	6.50	D
Syringe for acrylic cement	SP-SYGE	3.95	D
Thickened acrylic cement - 5 oz. tube	SP-292001	9.00	C

Compass Mounting Kits

These compass mounting kits are designed primarily for use on Cessna windshields which are using our STC compass mounting block bonded to the windshield. The windshield part number is designated with a suffix (/CMB). Kits are available with or without a new Airpath compass.

	PART NO.	LIST PRICES	CODE
Compass and mounting kit for Cessna STC conversions..... Kit includes Airpath C2200L4 compass, compass housing, deviation card, attached mount, and hardware.	SP-CMKT	305.00	C
Compass mounting kit for Cessna STC conversions..... Kit is applicable only to the Airpath C2200L4 and includes compass housing, deviation card, attached mount, and hardware (Airpath C2200L4 Compass not included).	SP-CHKT	135.00	C

Glareshield Compass Mount

This is a polished acrylic compass mounting bracket for kit aircraft which is bent at a 90 degree angle and allows you to mount your compass to the top of your glareshield.

Compass mount for glareshield installations - acrylic - Non-PMA	LP-081	31.00	A
---	--------	-------	---

Aircraft Quality Sheet Acrylic

Sheet acrylic is available in the following colors, sizes, and thicknesses. These sheets meet ASTM D4802-94 or Federal specification L-P-391D and are of aircraft quality. Each sheet is available in clear, 2111 green tint, and 2515 solar gray tint. Also available are acrylic sheets meeting MIL-P-5425E, MIL-P-8184E, and MIL-P-25690B.

THICKNESS *	LIST PRICE PER SQUARE FOOT			CODE
	CLEAR	GREEN (2111)	GRAY(2515)	
.060"	\$ 6.50	\$ 7.60	\$ —	C
.080"	6.50	7.60	7.60	C
.100"	6.75	7.75	7.75	C
.125"	6.75	7.75	7.75	C
.150"	6.90	8.25	8.25	C
.187"	7.60	9.05	9.05	C
.250"	8.95	10.40	10.40	C
.312"	11.50	16.84	16.84	C

*NOTE – These are nominal thicknesses based on the industry’s cell cast acrylic sheet tolerances. The tolerance range chart is shown on the inside back cover of the catalog. Pricing and sheets sizes of other tints are available upon request. Minimum order may be required.

Acrylic Sheet Sizes:
Standard size 48" x 72" - .060, .080, .100
48" x 96" - .125, .250
72" x 96" - .125, .150, .187, .250

THERE IS A 20% CUTTING CHARGE ON ALL OTHER SIZES. MINIMUM CUTTING CHARGE OF \$10.00. GRATING CHARGE MAY APPLY.

Policies and Warranty

PAGE
75

Phone: (724) 744-4448
FAX: (724) 744-7372
E-mail: windshields@lpaero.com

WARRANTY:

Our windshields and windows are warranted against defective materials and workmanship. The warranty is limited to the replacement of the defective parts. There is no allowance for labor costs incurred during installation and removal of a defective part. **Prior to installation the protective coating should be peeled and the part inspected.** After inspection the window may be recovered with the protective coating which was removed or recovered with a cling type plastic food wrap. **We will not assume any liability for damages due to improper installation or any damage incurred during shipping. Our warranty does not cover cracking, crazing, scratches or breakage.** Any item shipped to us without proper authorization will be refused. Call for a return authorization number.

AOG SERVICE:

AOG orders will receive expedited and priority processing, manufacturing and shipping. There will be a \$30.00 AOG fee. This fee may be adjusted upward based on the number of parts ordered.

TINTS:

Federal Aviation Regulation (FAR) 23.775 states that, from the pilots back forward as seated in flight position, the windshield and windows must have a minimum light transmittance of 70%. The Green Tint (#2111) and Solar Gray Tint (#2515) have a minimum light transmittance of 72 to 75%. All type certified aircraft must comply with this regulation. Tints are not available for most pressurized aircraft outer pressure windows. The inner "scratch panel" windows may be tinted. Optional darker tints are available in gray and bronze where allowable and for any experimental aircraft.

All orders will be filled with clear windows unless the particular tint is speci-

fied. There will be an additional charge of 20% for all in-stock tints unless otherwise noted.

CUSTOM:

Contact our custom department for special order canopies, windshields, or windows. We are able to manufacture windshields and windows from your specifications or your tools: home-builts, extra thick windows, special vents, camera windows, large domes, and out of production windshields and windows used by Type Certificated, Supplemental Type Certificated and Experimental aircraft. Any window manufactured by our company which varies in any way from our FAA-PMA approved data will not be supplied with a FAA-PMA tag. **These windows will be manufactured in compliance with FAR 21.303 "Owner/Operator Produced Parts". An "Owner/Operator Produced Parts Form" will be provided and must be completed and submitted along with the window specifications, engineering data, and/or sample window in order for our company to proceed with the fabrication of the window order. A field approval FAA form 337 or STC will be required for installation in a certificated aircraft. We recommend that the form 337 be approved prior to proceeding with the fabrication of the window.** Non PMA'd parts will be supplied with a letter of certification and any additional information which may be required by the FAA or their representative for approval.

RETURNS:

Any item* purchased from LP AERO PLASTICS may be returned for a **FULL REFUND WITHIN 30 DAYS** of the original shipment date. Items returned 31 to 60 days after the original shipment date will be refunded less a 20% restocking charge. All returned items are subject to inspection and

must be as new, untrimmed, unmodified, and undamaged. All factory protective coatings must be in place and intact. Returned items must be shipped prepaid and insured, and have an LP AERO PLASTICS "RETURN AUTHORIZATION NUMBER" written on the outside of the shipping container next to the shipping label. Please call for return authorization. **AFTER 60 DAYS ALL SALES ARE FINAL AND NO REFUNDS WILL BE GIVEN.**

***All custom-made and non-standard windows are payable in advance and cannot be returned.**

SHIPPING:

All shipments are FOB shipping point sent the least expensive way, freight collect and COD unless otherwise specified. Air freight, motor freight, Parcel Post, Federal Express, and UPS are available.

EXPORTS:

Each FAA-PMA approved window is supplied with an FAA-PMA identification tag and an FAA form 8130-3 tag FOR DOMESTIC USE ONLY -NOT FOR EXPORT. The 8130-3 tag for export must be requested at the time of order placement and there is an additional charge. Please contact our office for special rates on export services and crating.

WHOLESALE ONLY:

Fixed Base Operators, Dealers and Distributors, must be companies established in the aircraft parts, maintenance, sales or service business.

This price list No. 2005 supercedes all previous price lists. Effective March 15, 2005.

MASTERCARD - VISA - AMERICAN EXPRESS MINIMUM ORDER - \$10.00 AOG FEE - \$30.00

Windshield and Windows Cleaning Instructions

LP Aero Plastics, Inc.
1086 Boquet Rd.
Jeannette, PA 15644-4707

Phone: (724) 744-4448
FAX: (724) 744-7372
E-mail: windshields@lpaero.com

Before the application of **LP Aero Plastics Acrylic Polish and Sealant** or other approved aircraft window cleaner/polish, flush the windows with water to remove all abrasive dirt and grit from the surface. A little dish-washing liquid added to the water will remove the bug residue and not harm the acrylic. Rub gently as needed using a **DuPont Sontara® Window Wipe**, 100% cotton flannel cloth, or your bare hand.

Apply the **LP Aero Plastics Acrylic Polish and Sealant** or other approved polish/sealant following label directions with a **DuPont Sontara® Window Wipe** or 100% cotton flannel cloth. Wipe off with a clean, dry **DuPont Sontara® Window Wipe** or cotton flannel cloth.

Additional information:

- Do not use any cloth other than those mentioned above. We have never found any paper or shop towel that did not scratch.
- Do not use any glass cleaner containing ammonia on acrylic plastic aircraft windows. Ammonia will attack the acrylic and cause the windows to craze (thousands of microscopic cracks).
- Do not wipe the windows with solvents such as MEK, acetone, lacquer thinner, or other organic solvents, etc. Such solvents can cause rapid crazing or actually cause the plastic window to melt. The only safe solvents to use on acrylic windows for the removal of sticky or greasy residue are 100% mineral spirits, naphtha (VM & P), or kerosene. Some alcohols are safe, such as isopropyl alcohol (rubbing alcohol) when used to remove tape or adhesive residue and allowed to evaporate quickly, but not all.
- If water is not available in quantity sufficient for flushing the windows, at least remove dust and grit by dragging a clean, water-saturated **DuPont Sontara® Window Wipe** or 100% cotton flannel cloth across the window. The concept is to remove, as gently as possible, abrasive dirt and grit from the window before you wipe the window. Again, if the window is wiped with abrasive dirt on the surface, scratching can occur.
- Some knowledgeable people recommend wiping aircraft windows only in a vertical and horizontal fashion. The theory behind this: if the window should be scratched in the wiping process, it is better to scratch only in vertical and horizontal directions. If the window is wiped and scratched in a circular fashion, the scratches will tend to be visible in all light conditions. If wiped and scratched vertically and horizontally, the scratches tend to be visible only when light is hitting the window from a certain direction. Our opinion is you won't have to worry about the wiping direction if you clean the window and don't wipe around the dirt and grit.
